

XPS Bridge

A tailor-made web solution for your members

XPS Bridge is a responsive website which is easy to navigate and looks great on computers, tablets and smartphones.

It's a tailor-made solution for you to meet disclosure requirements and improve online member engagement.

Bridging the gap between your members and the important information they need, to build knowledge and understanding of their benefits.

XPS Bridge is a tool for clients who are interested in enhancing online member engagement. With a simple set-up process, easy management and transparent pricing, it's a great solution for all types of pension schemes.

XPS Bridge is also ready-made to fulfil the need for DC schemes to publish their Chair's statement on a publicly available website.

The benefits of engaging members online include:

- Provides a familiar central hub with immediate login-free access
- Easily refreshed content so you can actively engage and interact with members
- Instantly publish generic scheme communications, saving on postage costs
- Easy access to a library of important scheme documents and past communications
- Improves the connection with members, enabling quicker interaction
- Members are more likely to give direct feedback
- Gives members a resource to build knowledge and understanding of their benefits
- Stay in touch with members and make it easier for lost members to search for the scheme

How does it work?

XPS Bridge is a publicly available website, with a clear pricing structure and rapid installation, that can be tailored to your specifications.

Single-page solution

The single page base version of **XPS Bridge** is the straightforward way to meet current and future disclosure requirements and provide easy-to-find summary information about your scheme, including contact details and useful links.

Multi-page versatility

You have the flexibility to add further pages on to the base version of **XPS Bridge**. This will enable you to provide the engaging content that your members need, to build knowledge and understanding of their benefits.

Simple set-up, management and maintenance

XPS Bridge can be set up quickly with your content and bespoke branding, with no need for long periods of development and implementation. Our fixed fee structure includes hosting and annual maintenance.

Tailored content

XPS Bridge content can be tailored to your requirements, and can include scheme specific information such as important contact details, links and document library.

Bespoke branding

Logos, straplines, colour schemes and typeface can be changed to reflect a unique brand (scheme or sponsoring employer), or you can just use the base XPS branding.

How much does it cost?

We understand that building a website can often involve long periods of development and uncapped costs, so we knew it was important for **XPS Bridge** to have a quick set-up and a transparent pricing structure.

All elements of XPS Bridge are available for fixed costs:

£2,000	XPS Bridge base site, with XPS branding
£500	Annual maintenance fee (required)
£1,500	Additional page, with XPS branding
£750	Bespoke branding, per page

All figures exclude VAT

Example packages

XPS Bridge base site, with bespoke branding
£2,750 plus £500 per annum

XPS Bridge base site, bespoke branding plus two extra pages
£7,250 plus £500 per annum

What's included in the maintenance cost?

Our annual maintenance cost includes site hosting, an annual review of disclosure requirements to make sure the site remains compliant and the upload of one scheme related member document.

Optional extras

We can provide more frequent updates such as news articles and regularly changing bespoke content. Our communications team will be happy to discuss this with you and provide a fee proposal moulded to your individual requirements. The team can also work with you to develop a campaign to promote the site to your members.
